**Inception date for Calvert Responsible Investing Investment Fund options for Donor-Advised Fund account was October 2, 2017. Performance prior to the inception of each Donor-Advised Fund is the performance of a corresponding separately managed account asset allocation strategy (Strategy) managed by Eaton Vance affiliate Calvert Research and Management, a SEC-registered investment adviser. The Strategy is managed with a similar investment objective and generally by the same investment team as the Donor-Advised Fund, however, the separately managed account has a different fee structure, tax considerations, and may be managed in a different and possibly less restrictive manner than a Donor-Advised Fund. Donors should not assume that they will have an investment experience similar to that indicated by past performance results of the Strategy prior to inception of the Donor-Advised Fund. Performance prior to the inception of the Donor-Advised Fund reflects the maximum fee of 3% for an account managed in this style and is not adjusted to reflect actual fees and expenses charged by the Gift Trust. If adjusted for actual expenses, returns may be different.
